Disclaimer:

1. Product availability is not guaranteed until an order is received. See your purchasing agent for product availability. Lead times are confirmed with the purchase order.
2. Delivery time after shipping is dependent upon recipient's location, shipping location and shipping method.
3. Certifications of the selected configuration (Marine GL, ATEX...) have to be checked in the corresponding certification files
4. A standard product may be available that has the same options as selected for this configuration. Please see your purchasing agent for a configuration number to part number cross reference.

No operating system units:

No support will be provided on third party Operating Systems installed by user. User is not allowed to install illegal Operating Systems on units delivered without Operating System.

Disclaimer regarding the continued sale of iPC with Windows7 installed.:

Support for Windows 7 of Microsoft ended on January 14 in 2020. As you cannot receive all support including security update program services after the end of the support, you are exposed to risk of an infection of malware including computer virus and leakage of classified information.

Along with the end of the support, most of commercially available applications are likely to end Windows 7-related support. We strongly recommend migration to our models with Windows 10 installed.

Please note that we do not accept any warranty, support, or liability for any problems or damage caused by no support of providing security update programs as a result of the continued use of Windows 7.
